

## *Internet Feed Setup*

---

Ticker Communications, Inc. 300 Keewatin Street Winnipeg, MB R2X 2R9 CANADA  
Tel: (204) 786.6054 Fax: (204) 783.3239 Toll Free: 1.888.884.2537 [www.tickercom.com](http://www.tickercom.com)

### Supplied Parts:

- 1x TCI Data Receiver w/ Power Adaptor
- 1x Sign to TCI Data Receiver cable

### Needed Parts:

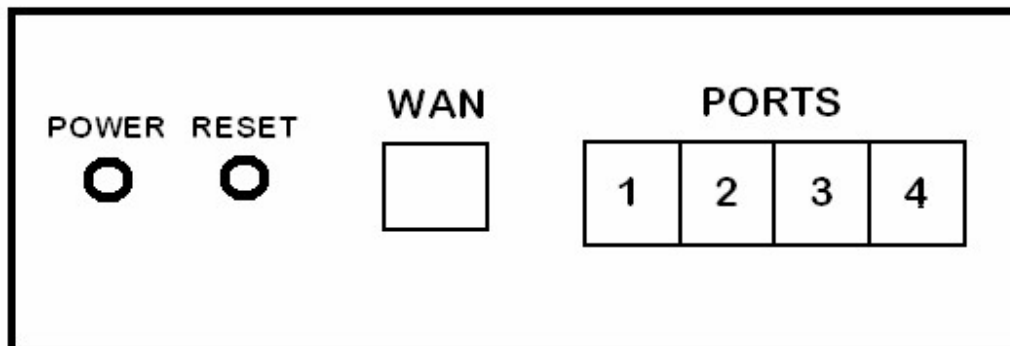

- 1x Network Cable (RJ45 ends) of desired length to reach from Router to TCI Data Receiver. This will be available from your local computer supply store.

### Installation Instructions

1. Connect the TCI Data Receiver into an empty port on the router with a network cable of desired length. Remaining free ports may be used for additional TCI signs or Internet access to additional computers.

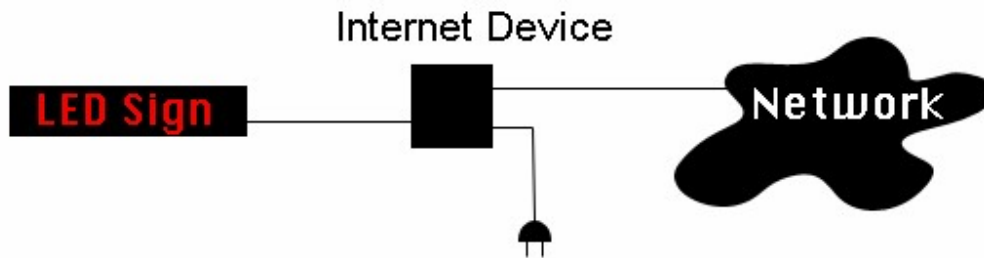

### TYPICAL ROUTER SETUP

Back view of Router

2. Connect the TCI Data Receiver to the RS-232 port on the sign with the cable provided.
3. Plug in the LED Sign and TCI Data Receiver with their respective power supplies.

4. The TCI Data Receiver uses DHCP to configure itself on your network and will automatically connect back to our distribution network.
